1. Sports Camps

Course Description:

Our focus and main goals are to introduce various sports and activities to the youth in a fun filled, safe and educational environment. Starting with an aerobic warm-up and discussion on the various sports and games we will be playing, we will provide the proper instruction and techniques to make sure each student has a great experience. In addition to proper rules and etiquette, we will focus and preach sportsmanship and camaraderie in a group setting.

In light of the pandemic, sports and activities are conducted outdoors. We will not practice contact moves, keeping at least 3 feet distance between students at all times.

PART III. Basic Camps

Week 1: Communication: Meet and Greet!

The campers will be given a chance to get acquainted with other campers through games and activities. Our setting makes for an ideal environment to develop life-skills, meet new friends, and enjoy fun summer activities related to communication and public speaking skills that are designed for their specific grades.

Week 2: Everything about Nature

The campers will explore the different aspects of nature. Yang Fan nature camp culture is infused with games that foster social skills and playful science camp activities that bring our camp spirit to life! All of our Nature Camps incorporate outdoor/indoor gardening, games, and arts & crafts activities.

Week 3: Super Hero

Meet and salute real life superheroes. The campers will explore what makes a Super Hero starting with the Marvel Comic characters to real live heroes such as firefighters and law enforcement officers. The campers will learn through lessons, games and activities such as Character Challenge and Dress-up as a superhero.

Week 4: Health and Nutrition

A fun program to teach kids about healthy nutrition and lifestyle habits. This week the campers will learn the importance of healthy living through nutrition, diet and exercise. Activities included menu writing, art classes, food science experiments, food demonstrations and daily exercise.

Week 5: Multicultural Week

The campers will learn that multiculturalism is related to or made up of several different cultures. The children take a virtual cultural journey around the world in each class that is fun filled. The age appropriate culture classes are designed in an effort to introduce students to international affairs at an early age.

Week 6: Bubble Festival

What joy of discovery sparkles in the iridescence, surface tension, buoyancy, and shape of bubbles! This delightful weekly theme uses tabletop activities to present exploratory lessons in math and science. Teachers will encourage independent thinking and cooperative learning while bringing great fun and excitement to the classroom. The weekly learning also includes exploring scientific content in greater depth, and creating literature and writing extensions.

Week 7: Astronomy & Space

This week we will be exploring the wonders of space! Astronomy and space classes are meant to capture students' interest in the universe and our place in it. Activities will often be based on mathematics, as astronomy and math are intricately connected.

Week 8: Green & Recycling

It's more important than ever to teach children the importance of going green. By helping to instill a sense of pride in being eco-friendly, kids can learn at a young age to actively protect their planet. Through fun lessons, hands on games and activities, we teach students the importance of preserving our Earth, Ecology and Conservation. Activities include: Recycling, Composting and Plant an herb garden.

Week 9: Safari Animals

Join us for an action packed adventure as we go on an expedition around Africa. where your kids could discover never-before imagined animals and tame Africa's wildest creatures. The campers will learn the fun facts of African wildlife and the land they live on through lessons, games and activities. Activities include animal presentations, art projects, and science projects.

2). ELA

Course Description:

This ELA online course for grades 1 through 5 will focus on a variety of language skills of reading and writing. Grade appropriate short reading selections will be used to enhance students' reading comprehension. Students will be asked to answer questions about the reading as well as to summarize, clarify, and infer. Context clues will be used to understand new vocabulary. Students will also be given the beginnings of a story and be asked to create meaningful endings consistent with the author's intent and style.

Before young writers mature and start moving towards expressing their thoughts and views by way of essays, storytelling is the genre that is more intuitive to them. Students in this class will primarily work on a variety of different styles: narrative, descriptive, how to, informative, and compare/contrast. Consistent with the language skills of each grade level, students will work on setting, character development, creative language usage, and correct grammar. They will use webs and simple outlines to enhance their work.

Eligible Grades: G1, G2, G3, G4, G5

Fee: \$27.5 per class (2 class per week)
